$4.1 Million for New AIDS Research Center

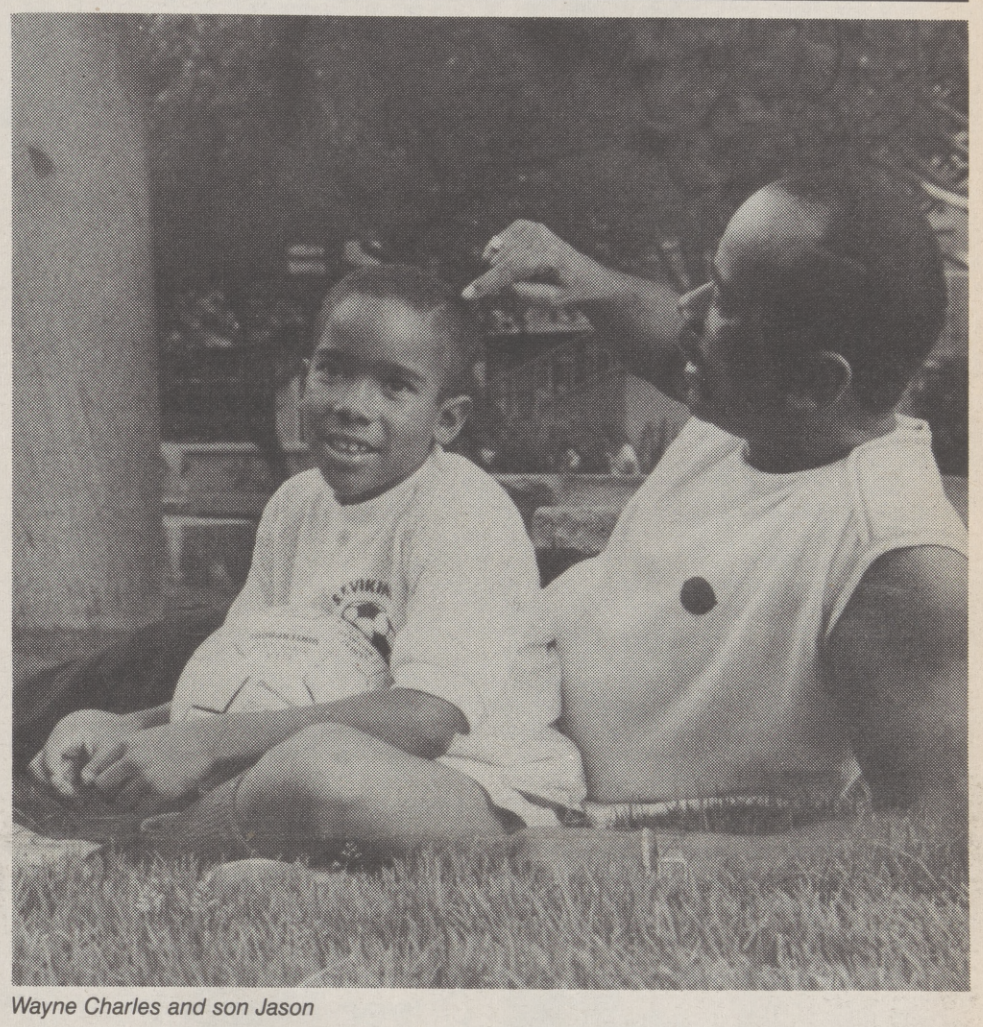

The campus has received a five-year $4.1 million grant from the National Institute of Allergy and Infectious Diseases (NIAID) to establish a new Center for AIDS Research, one of three such grants in the area. The others went to UC-Davis and Stanford.

The center will help expand, consolidate and focus the efforts of the more than 150 AIDS researchers on the Parnassus site, at SFGH and the VAMC. It also will lend support to AIDS researchers at the SF Department of Public Health and epidemiologists in the School of Public Health at UC-Berkeley.

Directing the center will be Paul Volberding, MD, associate professor of medicine and AIDS program director at SFGH, which will house the central operations of the new program.

Co-director of the new center is John Ziegler, MD, professor of medicine, who will lead the program along with Volberding and Richard Root, MD, professor and chair, medicine and Merle Sande, MD, professor and vice chair, medicine and chief of the medical service at SFGH.

In addition, NIAID has awarded a total of $8.8 million to UCSF and 10 other centers in the country to be part of a program that will expand clinical trials of experimental drugs for children with AIDS. UCSF's grant was awarded to Diane Wara, MD, director of the UCSF Pediatrics Clinical Research Center.

Wayne Charles and son Jason

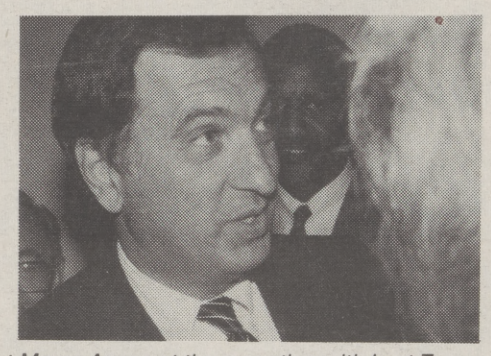

Agnos, Lee, Werdegar Honored for Commitment to Seniors

Mayor Art Agnos, SF Department of Public Health Director David W. Werdegar and Phil Lee, president of the SF Health Commission and director, UCSF Institute for Health Policy Studies, were among those honored by the SF Adult Day Health Network for their commitment to health for the elderly at a reception held on the UCSF campus Oct. 11.

Also honored were members of city and county departments who have helped the elderly, members of the Commission on the Aging, the United Way and the Public Utilities Commission. They all were there to accept their awards, except Dr. Werdegar.

The reception was sponsored on campus by the UCSF Office of Public Service Programs.

The Adult Day Health Network is a nonprofit organization that raises funds and coordinates services for seven adult day health care programs in San Francisco. It is a daytime program for frail elderly and disabled adults who may be facing institutionalization because they cannot adequately care for themselves. The programs provide transportation to and from ADHC centers, where they receive nursing care, rehabilitation, self-help education and psychosocial support.

Mayor Agnos at the reception with host Tom Gwyn, assistant chancellor for public service programs.

Phil Lee and SF Health Commission member Mrs. Mathew O. Tobriner (at left) receiving awards from Adele Corvin, chair of the ADHN Task Force.

Jason, Wayne and the United Way

You don't need to sell Wayne Charles on United Way. Five years ago, things were much tougher. "I needed to find child care for my son, Jason, but I couldn't afford it," explains Wayne. "I heard the San Francisco Community Nursery [an agency funded by United Way] had reduced rates for child care. So I applied for it and was accepted.

"Thanks to United Way, what was supposed to be at least $400 a month, turned out to be much, much less."

A staff research associate in the Laboratory of Radiobiology and Environmental Health, Wayne says that ever since then, when the campus United Way campaign rolls around, he not only contributes some of his money, but some of his time. "I'm always the department representative, because I think it's really important to promote it."

Wayne also has benefited indirectly from the campus United Way campaigns. Last year, his department was the lucky winner of $2,000 in a raffle sponsored by the School of Medicine Dean's Office. According to MSO Stella Hsu, the department still has the money (with interest now) and plans to use $200 of it for a raffle to help increase participation in this year's United Way campaign (October 31-November 11).

Needless to say, Wayne's lab is not the only campus unit getting behind this campaign. Just look what's planned:

- There are really far too many departments holding raffles to mention them all. But, as an example: Employees in all of the units under the Chancellor's Office will have a chance at tickets to the Nutcracker, cooked dinners, lunch at the City Club and much more.
- The School of Medicine Dean's Office will again raffle off a $2,000 cash prize to a department which has a 50% or better participation rate. The Dean's Office staff also will have a bake sale on Monday, November 7, on the second floor of Medical Sciences (near the elevators). All proceeds from the

(continued on page 2)

Quit Smoking Guide Goes National

Half a million copies of the "Guia para Dejar de Fumar" ("The Quit Smoking Guide") have been distributed to Latino communities throughout the US.

Produced by Program Latino para Dejar de Fumar at UCSF (Hispanic Smoking Cessation Project) of the Division of General Internal Medicine, the guide presents health problems caused by smoking and the most common techniques used to quit by smokers.

UCSF Latino faculty who helped develop the guide are research psychologists Fabio Sabogal, PhD; Barbara Marin, PhD, Regina Otero-Sabogal, PhD; and Eliseo J. Perez-Stable, MD, assistant professor, medicine and psychiatry; and USF's Gerardo Marin, PhD.

This 36-page color brochure is published by the National Cancer Society, which also funds the Smoking Cessation Project. It is free and available by calling the Cancer Information Service of California at 1-800-4-CANCER.

The work of the Hispanic Smoking Cessation Project has not gone unnoticed. It recently was awarded the California State Award by The American Cancer Society.

Which Health Risks Should Really Worry Us?

National science and medical reporter Cristine Russell will discuss the challenges in communicating to the public what really is a health risk and what is just part of a "Chicken Little" syndrome at a School of Pharmacy Regents Lecture on Wednesday, November 2, at 3 p.m. in Cole Hall. A reception will follow in the School of Nursing mezzanine.

Russell is an Alicia Patterson Fellow on leave from the *Washington Post*. Her lecture entitled "Risk Versus Reality: Challenges in Reaching the Public," will focus on how the public is bombarded with all sorts of "scare stories" linking the way we eat, live, work and play with an array of known and possible health hazards. With so many alarms being sounded, it's hard to know what to really worry about.

Russell is not new to our campus. She was here in 1985 as the Fifth Chancellor's Distinguished Lecturer for the Public Understanding of Science.

Successful Genetic Counseling for Ethnic Patients at SFGH

Pregnant women who are concerned about birth defects in their babies but don't speak English are turning to a new program at SFGH with dramatic success.

The program is providing prenatal genetic counseling and testing for patients from different ethnic backgrounds who have not been able to receive these services because they do not speak English as a primary language.

In the first six months, 236 patients were referred to the counselors and 90 percent of them came to their appointments. "The service is being used," said Ilana Mittman, MS, director of the program, "even though most of our patients have never heard of prenatal diagnosis."

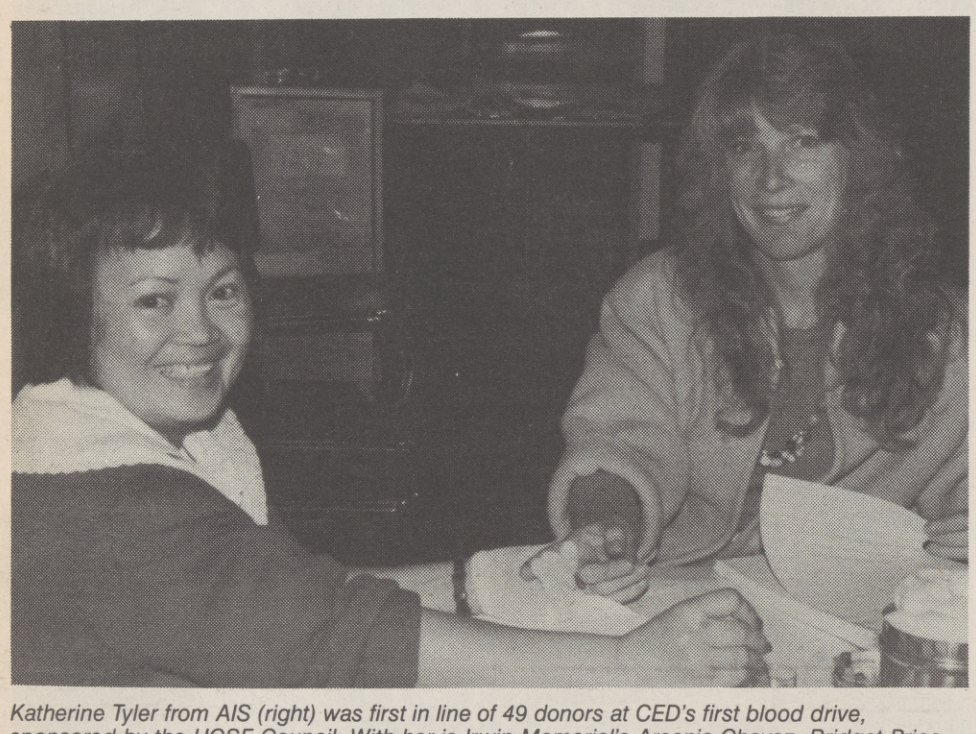

Mittman says that seven times as many patients from this population who are at risk because of being over 35 have accepted prenatal diagnosis than before the new program began.

Superstar String Quartet at UCSF Nov. 7

A rare opportunity is coming our way Monday, November 7: The Guarneri String Quartet, superstar among the world's chamber ensembles, will give an open rehearsal in Cole Hall beginning at 5:45 p.m. Described by the *New York Times* as having "no superior on the world's stages," the quartet will perform works from its current repertory, including a late Beethoven work. A wine and cheese tasting in the foyer will precede the program. Tickets will be available at the door; $7 general, $5 for UCSF students. Co-produced by UCSF Arts & Lectures, the Laboratory of Radiobiology and Environmental Health, and the Department of Biochemistry and Biophysics.

UCSF Arts and Lectures will kick off its "Just About All Jazz" series with radiant song stylist Weslia Whitfield on Friday, November 4, at 8 p.m., Laurel Heights. For ticket information, call x62035.

First Donor at First CED Blood Drive

Katherine Tyler from AIS (right) was first in line of 49 donors at CED's first blood drive, sponsored by the UCSF Council. With her is Irwin Memorial's Arsenia Chavez. Bridget Price from LPPI billing won the raffle: dinner for two at the "Washbag."

Queen Elizabeth in Sooy's Chair

Little Elizabeth Miller found a place to perch and struck a regal pose for the camera at last week's party at the Marilyn Reed Lucia Child Care Center. The party was to thank the more than 75 people who have participated in the Center's "Chair Campaign," in which those who bought chairs or tables for the Center were honored with a brass name plate attached to the furniture. Elizabeth, daughter of News Services' Jeff Miller, chose the Betty Sooy chair for her throne.

The campaign was so successful, says organizer Marianne Lynch, that in addition to 60 new chairs and four tables, the Center will be refurbished with a new changing table, toy carpenter's bench and rocking boats.

Front Runner

Front Walker

In last Saturday's "Run for Health," neuroscience MSTP student Fady Malik was first runner in, followed close behind by neuroscience's Mike Ignatius. In the walking division, Dagmar Bauer from genetics power-walked her way to the winning slot. See next issue of Medsounds *for further details and photos of the run and Medical Center picnic.*

Moses Grossman, flanked by former chief residents, who date back to 1960.

"Oh Good, He's Not Retiring"

It was not very difficult to get 28 men and women from across the country to a dinner last Saturday evening to honor UCSF pediatrician Moses Grossman, MD. From the Bronx to Baltimore, Ann Arbor to Detroit, Eugene to LA, they came because they shared respect, admiration and warmth for this foremost Bay Area pediatrician. They shared one other thing: They all had served as chief residents under him at SFGH.

According to another UCSF pediatrician Myles Abbott, MD, chief resident '75-76, who organized the affair, he needed to explain to all those invited that Dr. Grossman was *not* retiring. Instead, "Mischa," as he is known by most, was to be honored for his years of dedicated teaching and clinical excellence.

But, after listening to the invited guests, you knew he was being recognized for much more: For "all the early morning hours he rolled out of bed without hesitation to help a patient or a resident in despair" . . . "always being there when you needed him" . . . "teaching me that you need to look and listen to the patient before you even touch him because he is telling you something" . . . "showing me that the family is just as important as the patient, because they also are suffering."

All the chief residents agreed that they wanted to do particularly well while they served under Dr. Grossman, because "it was really an honor to be chosen by him."

Maybe that's because his reputation precedes him: A widely recognized expert on infectious diseases, he has been a faculty member for the last 37 years, has served as vice chair of pediatrics since 1970 and chief of SFGH pediatrics since 1959. He pioneered work in child abuse in this city and founded the SF Child Abuse Council, serving as president from 1974 to 1977. At present he is a member of the Mayor's Task Force on AIDS.

No, Mischa is not retiring. Much to everyone's delight.

Don Lorenzo

SF Candidates All Agree, "We Want UCSF at Laurel Heights"

At two "Candidates' Forums" on October 17 and 24, hosted by UCSF's Staff Advisory Committee, and attended by hundreds of members of the campus community, fourteen of the leading SF Board of Supervisors hopefuls were available to answer questions and state their positions. All 14 announced that they supported the UCSF presence at Laurel Heights. Shown here are candidates Michael Hardeman, Tom Hsieh and Harriet Ross.

United Way *(cont.)*

sale will go to the AIDS Crisis Fund of the United Way. Last year, their bake sale raised over $200 for the fund.

- The School of Nursing will raffle off two special gifts (no word yet as to what they will be)—one to a faculty member, the other to a staff employee.
- The Schools of Pharmacy and Dentistry also will have raffles, both on Friday, November 11, the last day of the campaign— dentistry at 4 p.m. in Room S 630; pharmacy at 3:30 p.m. in HSW 301. Deans, directors and department chairs all have donated gifts. Those that *Newsbreak* knows about include:

From the dental school: $100 gift certificate at Nordstrom's, two bottles of vintage champagne, two gourmet food baskets, two SF Symphony tickets.

From the pharmacy school: $100 and $30 gift certificates at Nordstrom's, two $25 gift certificates at the Nature Company, $100 gift certificate at Campus Travel, a full day of sailing on the SF Bay.

- The Medical Center's list of raffle prizes continues to grow. See page 8.

Honors & Awards

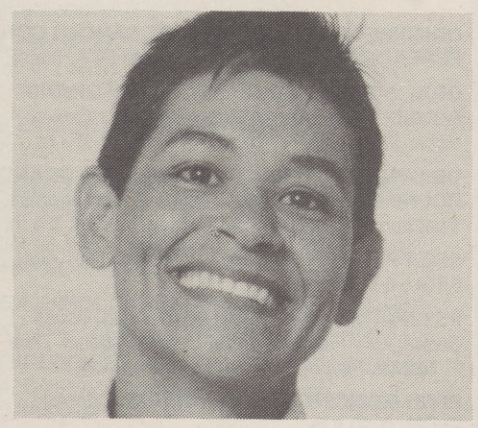

Rapaport

Elliot Rapaport, professor, medicine; associate dean, medicine, SFGH; chief, cardiology, SFGH: Winner of the 1988 James B. Herrick Award of the American Heart Association in recognition of his research, teaching and clinical contributions.

Boyer

Herbert W. Boyer, professor, biochemistry: One of four recipients of the 1988 City of Medicine Award for extraordinary contributions to medicine in the public interest.

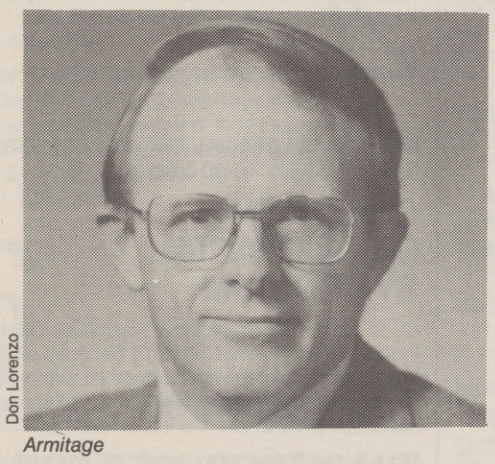

Lozada-Nur

Francina Lozada-Nur, associate clinical professor, stomatology: Appointed visiting professor at Mekai University, Tokyo. She will lecture on oral vesicular erosive diseases and on the early oral manifestation of HIV infection.

Lydia Temoshok, assistant professor, psychiatry: Invited speaker at the first International Conference on Psychoneuroimmunology & AIDS in Bonn, June; at the National Program Planning Meeting for the National Scientific Effort on AIDS Modeling & Epidemiology in Leesburg, VA, July; and at the Behavior Therapy World Congress in Edinburgh, Sept.

Allan V. Giannini, associate clinical professor, pediatrics: Presented a paper at the XIII International Congress of Allergology & Immunology at Montreaux, Switzerland in October.

Don Lorenzo

Armitage

Gary C. Armitage, professor, stomatology; chair, periodontology; **Deborah Greenspan**, associate clinical professor, oral medicine: Chosen for fellowship in the American College of Dentistry for their outstanding work in both the dental profession and in public service. They join 34 UCSF faculty as fellows of this most prestigious organization of American Dentists.

Greenspan

Yuet W. Kan, professor, medicine & laboratory medicine; Louis K. Diamond Professor of Hematology: Appointed by President Reagan to the President's Committee on the National Medal of Science.

Jeffrey A. Katz, associate professor, anesthesia; **Claire Brett**, assistant professor, anesthesia & pediatrics; **Brian A. Cason**; **George H. Lampe**, both assistant professors, anesthesia: Winners of the UCSF Department of Anesthesia 1988 Awards for Clinical Excellence.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Sharon Andreassen, administrative assistant III, medicine.

Prudence Bothen, administrative assistant III, CVRI.

Jackie Benson, administrative assistant III-supervisor, orthopaedic surgery.

Lilli Bradin, supervising clinical social worker, social work.

Julie Cantu, collection representative, accounts receivable.

Denise Codwell, administrative assistant III, nursing education.

Constance Conmy, administrative assistant I, epidemiology & international health.

Leslie Delehanty, administrative analyst, psychiatry/LPPI.

Edmund Diaz, counselor assistant III-supervisor, psychiatry-AIDS Health Project.

Stephen Dungey, senior/hospital assistant, operating room.

Laura Dunne, secretary II, surgery.

Julia Engleton, program representative II, family & community medicine.

Nancy Ewart, administrative assistant II, pediatrics.

John Fox, police sergeant, police department.

Kathryn Franks, senior radiologic technologist, radiology.

Richard Frautschi, administrative assistant II, School of Nursing/physiological nursing.

Edward Howze, program representative II, psychiatry-AIDS Health Project.

Eve Jaffe, supervising clinical social worker, social worker.

Margaret Kennedy, administrative assistant III, ACC-clinic administration.

Andrew Knox, social work associate, psychiatry-AIDS Health Project.

Joann Lacasse, administrative assistant III, accounting.

Frances Lew, financial assistant II, School of Pharmacy-dean's office.

Vickie Lewis, hospital laboratory technician III-supervisor, CVRI.

Cynthia Lima, principal accountant II, budget & reimbursement.

Barbara Lockwood, telecomm assistant II-supervisor, hospital telecommunications.

Rosita Martinez, administrative assistant I, restorative dentistry.

Gil Moskowitz, programmer/analyst III, anesthesia.

Lydia Moskwin, administrative assistant III-supervisor, neurosurgery.

Patricia Murphy, personnel assistant II, epidemiology & international health.

Dale Patra, staff research associate I, CVRI.

Jean Perry, administrative nurse I, obstetrics/gynecology.

Lee Pitts, senior building maintenance worker, physical plant.

Kong-Hu Pua, staff research associate II, obstetrics/gynecology/reproductive sciences.

Jim Robinson, police sergeant, police department.

Steven Sexton, administrative assistant II-supervisor, medicine/AIDS/oncology.

Mark Siobal, respiratory therapist III, respiratory care service.

Roy Smally, senior custodian, environmental services.

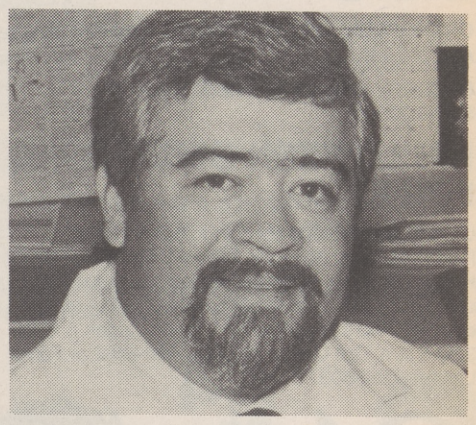

Samuel Sobol, associate physician diplomate, medicine.

Rita Spivey, administrative assistant II, Cancer Research Institute.

Catherine Theilen, administrative assistant II, pediatrics.

Maria Tong, clinical nurse III, surgery/transplant services.

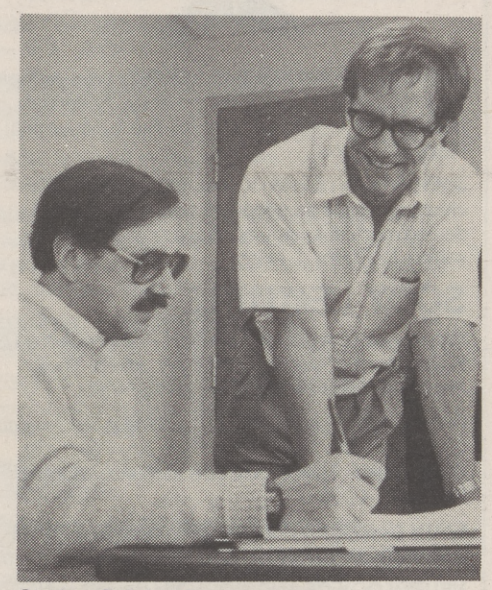

Appointments

Artiga

Nelson Artiga, DDS, MPH, clinic director, UCSF Predoctoral Dental Clinic, SFGH. An associate clinical professor, he graduated from our School of Dentistry in 1975 as both a Regents and Fleming Scholar. Appointed assistant clinical professor, dental public health & hygiene and restorative dentistry in 1980, he served as project director and principal investigator of the School of Dentistry Recruitment & Retention Program from 1978-81. He is vice-president of the Latin American Dental Association, Northern California Chapter, and is the 1988 LADA honoree for outstanding work. He is a visiting professor at the Universidad Autonoma de Guadalajara and chair of the Pan-American Children's Fund which provides medical assistance to orphaned and handicapped children.

New Neuroscience Co-Directors

Stryker, Reichardt

Michael P. Stryker, PhD, professor, physiology and Louis F. Reichardt, PhD, professor, physiology, biochemistry and biophysics, have been appointed co-directors of UCSF's Neuroscience Graduate Program.

Stryker came to UCSF in 1978 as assistant professor of physiology, and, except for a year as visiting professor at Oxford, has been with the neuroscience program ever since. Appointed full professor in 1987, his research focuses on the role of neural activity in the early development of the central nervous system, particularly the visual component.

Reichardt came to UCSF as assistant professor of neurobiology in 1977 and has been full professor since 1985. His research specialty is developmental neurobiology. You might recall Reichardt from the February 1984 *UCSF Magazine* article on his climbing expeditions to Mt. Everest.

The Neuroscience Graduate Program trains graduate students to do research in the neurological sciences and awards a PhD. This interdepartmental program has been headed, since its founding in 1976, by Zach Hall, PhD, who is professor and chair of physiology and professor of biochemisty and biophysics.

From AA to Associate Dean

Jaclyne Witte, assistant director of the Cardiovascular Research Institute since 1985 begins a new career on Nov. 1 as associate dean for administration in the School of Medicine at SUNY-Stony Brook.

While on campus, Jackie traveled around a bit. A UC employee for nearly twelve years, she first came here in 1977 as an AA in medicine. She then took an MSO position in biochemistry for a while, then back to medicine, also as an MSO—over to the Office of the President, which, according to School of Medicine associate dean for administration Dick Littlejohn, "was a short detour, but she emerged unharmed," then back to campus in 1985.

The best part about leaving? Jackie says, "It will be a great job!" The worst part? "Very, very difficult to leave all of these friendly faces."

Jackie Witte opens her going away present—a baccarat crystal bear.

Good Housekeeping's Best in Ob/Gyn

Good Housekeeping magazine recently asked 250 leading obstetrician-gynecologists across the country to name the best practicing physicians in their field. UCSF's Robert B. Jaffe, Richard L. Sweet and Mitchell S. Golbus were among the top 107 of the almost 1,000 physicians named.

Jaffe is professor and chair, ob/gyn and reproductive sciences and director of the Reproductive Endocrinology Center; Sweet, professor and vice-chair, ob/gyn; and Golbus, professor of ob/gyn and pediatrics.

29 Saturday

ORTHOPEDIC GRAND ROUNDS. Shriner's Hosp. Aud. 8-9 a.m.

SURGERY GRAND ROUNDS. VAMC Aud. 8:30-9:30 a.m.

HALLOWEEN SING-ALONG FOR KIDS

Children's sing-along concert to benefit UCSF Pediatrics Dept. Balloons, prizes & Halloween treats. Kids & adults urged to wear costumes. Adults $5, children $4, advance family tickets $12, $14 at the door. St. Paul's Presbyterian Church, Judah & 43rd. 3:30-5 p.m. Call Carrie Johnson, 566-6162 or Ferne Langer, 731-9503.*

31 Monday

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

- Oct. 31-Nov. 4: Marina Green parking lot near Ft. Mason entrance.
- Nov. 7-8: SF Federal Building on Polk near Golden Gate.
- Nov. 9: VAMC-Palo Alto (for employees & patients only).
- Nov. 10-11: Diamond Heights Blvd. near Safeway.

UNITED WAY BEGINS

The campaign runs from Oct. 31-Nov. 11. See what the campus has planned on page 1. Medical Center details on page 8.

UCSF ORCHESTRA

All campus people with musical talent needed. First meeting at St John's Church, 5th & Irving. Tues., Nov. 15. 8 p.m. For further information call Jonathan Davis, 681-2468.

Benefits/Personnel

Here's the Complete List of Open Enrollment Meetings

By now you have received all your mailings from both the UC and the UCSF benefits offices, you've thoroughly read them, you have no questions, and you're all ready for open enrollment month, November 1 through 30. True?

Ah ha, false. Then you'd probably like an updated list of the open enrollment information sessions, which now includes the times for Oyster Point, CED, VA, and SFGH meetings:

- Friday, November 4: Noon to 1:30 in Cole Hall.
- Wednesday, November 9: Noon to 1:30 in Cole Hall.
- Wednesday, November 9: 5 to 6:30 p.m. in Toland Hall.
- Thursday, November 10: 8:30 to 10 a.m. and again from 10 to 11:30 a.m. at Oyster Point.
- Thursday, November 10: Noon to 1:30 at CED, Hartsook Room.
- Monday, November 14: Noon to 1:30 at SFGH, Carr Auditorium.
- Tuesday, November 15: Noon to 1:30 at VAMC, A 173.
- Friday, November 18: Noon to 1:30 in Cole Hall.

In addition to the above meetings, which will give you an overview of all open enrollment issues, there will be two meetings featuring representatives from each of the medical plans. At these times, representatives will describe their plans and be available for individual questions:

- Monday, November 7, Cole Hall:
11:30 a.m. to noon, informal session
Noon to 1 p.m., presentations
1 to 2 p.m., informal session
- Friday, November 11, CED Hartsook Room: Repeat of above.

Be the Last to Know: New Mobile P.O.

It's already been here several weeks, but just in case you never walk that direction, here's something you'll be happy to know: A full service mobile post office parks on Parnassus between the Emergency lot and Langley Porter every weekday, 11 a.m. to 1:30 p.m.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of September 30):

- *Accumulation Unit Values*

Equity Fund: $50.61 (4.3%)* (-16.12%)**
Bond Fund: $32.55 (3.6%)* (17.17%)**

- *Monthly Factors*

Savings Fund: .0070 (8.70%)***
Money Market Fund: .0066 (8.20%)***
GIC Fund: .0072 (8.93%)***

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent change in unit value from previous month.

***Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Key to union codes:
AFSCME: CX—Clerical and Allied Services
EX—Patient Care Technical
SX—Service
CNA NX—Registered Nurses

Academic

The Senior Vice Chancellor Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Affairs, Room U 162, UCSF, (415) 476-2529. Positions are located on the Parnassus campus unless otherwise noted.

Senior Auditor. Internal Audit - CED. #V-S60328. $2,825-$4,242. Open Until Filled.

Speech Pathologist. Otolaryngology. #M-F31326. $2,567-$3,850. Open Until Filled.

Buyer II. Materiel Management. #V-S62277. $2,333-$3,500. Open Until Filled.

Student Affairs Officer I. Campus Housing Office. #V-H47566. $2,117-$3,175. Open Until Filled.

EMPACT!

Last Chance to Buy See's Candy Cheap(er)

Order your See's candy before Tuesday, November 15, and you can save anywhere from 80¢ to $2.70 a box. There are more reasons for doing this besides saving money. This is a fundraiser for EMPACT!, which, naturally, directly benefits you. There are seven varieties available, which you can read about in the Fall '88 edition of the "Action Line" newsletter, available at the MU Central Desk. Also in this newsletter is the form for ordering the candy. Mail the form with your check made out to UC Regents to EMPACT!, Box 0234. Your candy will be ready for pick-up the first week in December.

- **Come in costume to the Third Annual Halloween Festival** coming up this Monday, October 31, at noon in Saunders Court! You may win a fine prize. Or even if you don't, you're guaranteed a good time: Dancing to Zulu Spear, guffawing at outrageous jack-o-lanterns, eating Halloween items. Co-sponsored by PRO and EMPACT!.

- **Of course you love wine and cheese,** so come to the Wine Tasting Bacchanalian Bash at the Faculty/Alumni House on Tuesday, November 15, 5:30 p.m. Here's what you get for your $10: Wines presented by Wilfred Wong of Ashbury Market, cheeses, pate, the music of cellist Emil Miland, a performance by UCSF's very own choir, the "Vocal Chords," and a chance of winning a mystery trip from Ask Mr. Foster Travel. Buy your tickets at the MU Central Desk or at the door. Co-sponsored by EMPACT! and UCSF Arts and Lectures.

- **Ski Season's Coming!** Outdoors Unlimited has rental cabins available at North and South Lake Tahoe, December through March. These are big places that sleep at least 12 people. Midweek rates are $100 a night; Weekend rates, $275-$285 per weekend. Call x61469 to reserve. Also, check out Outdoors Unlimited's discount lift tickets at four different Lake Tahoe ski areas.

Introducing Our UCSF World Corporate Games Participants

These four people are representing UCSF in the 1988 World Corporate Games taking place in San Francisco through November 5: (left to right, starting with left photo) Jim Sugai from laboratory medicine at the VA (triathlon), Brendan O'Donnell from the anesthesia workroom (triathlon and cycling), Lee Hillman from Dr. Jaffe's office (cycling), and Herb Jones from Materiel Services (bowling). We'll print the results next issue.

Epilepsy Center Marks a Milestone

A couple of Saturdays ago, the Epilepsy Center celebrated a successful track record with a reunion for all surgery patients since the Center opened two years ago.

Of 60 surgery patients to date, 32 made it to the party, including one person who came all the way from Gary, Indiana. In addition, there were parents, children, spouses, friends and relatives, plus the hosts—neurologist and Center directer Ken Laxer, neuropsychologist John Walker, neurosurgeon Nick Barbaro, nurse practitioner Robin Taylor, administrative assistant Robin Song and social worker Liz Manning-Long.

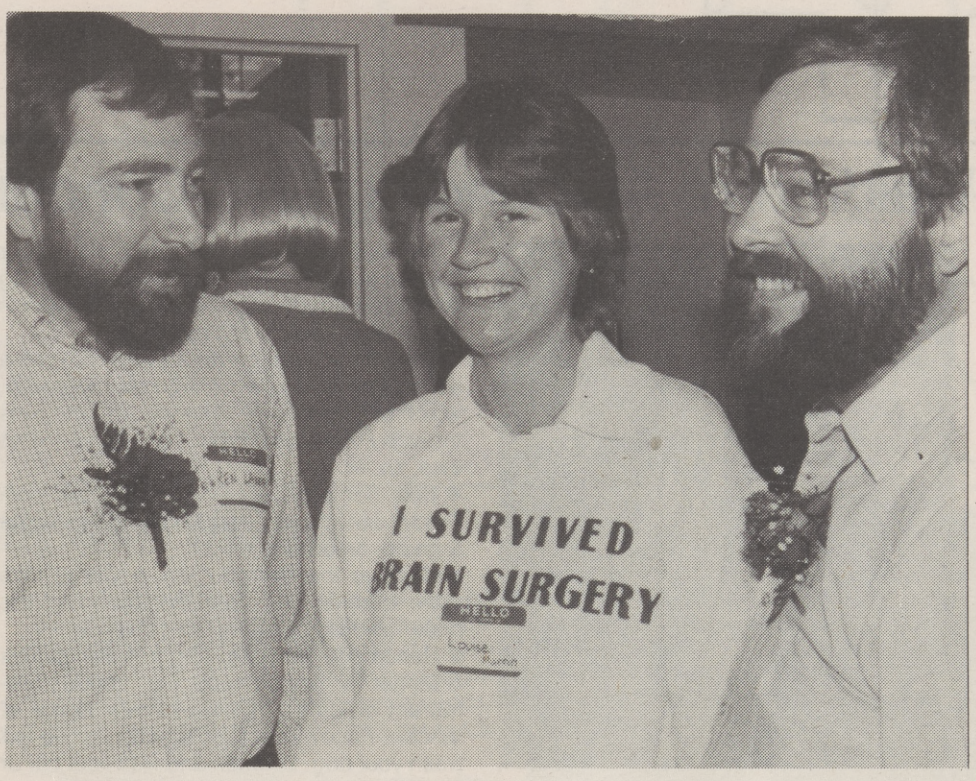

"Our main intention," says Robin Song, "was to give our surgery patients and their families an opportunity to meet and share experiences. That's exactly what happened. People arrived as strangers and left for home as friends. I'd say it was a great success."

The Center provides a telephone support network, in which potential surgery patients are hooked up with those who already have gone through the experience, says Robin. "So it also was an opportunity for a lot of these people to re-connect, this time in person."

The surgery patients represent about a quarter of the referrals to the Center. At least half of the patients referred to the Center benefit sufficiently from a change in medication, thus avoiding surgery, says neuropsychologist John Walker. Sometimes, however, the best option is to actually remove the brain tissue where the seizures originate. On the average, the amount of tissue removed might be about the size of a walnut or a plum, he says.

How does this affect brain function?

"The fact is," he says, "the abnormal tissue we remove isn't contributing to brain function anyway. Usually all it's doing is housing the electrical problems causing the seizures. When we remove it, not only can we bring the seizures under much better control in most cases, but the rest of the brain seems to function better when the electrical problems are removed."

Drs. Laxer and Walker with a thriving "survivor" at Saturday's reunion.

The patients referred to the Center almost exclusively are those who have not responded to conventional medication, says Dr. Walker. The Center serves the territory from Portland to LA and east to Nevada (and, at least in one case, as far east as Indiana). With only four full-time staff and a half-time social worker running the show, they have the smallest—and probably busiest—staff of any epilepsy center in the country. But if the comments from patients at Saturday's reunion are any testimony, they're also running one of the best.

6 Reasons to Visit the Blood Donor Center

Maggie Bryan

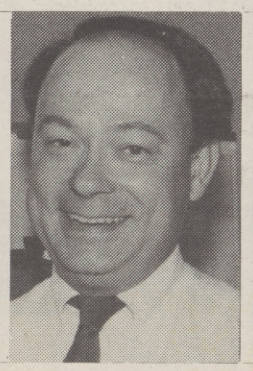

Sharon Coleman

Steve Cohen

Carol Viele

Marek Bozdech

Elizabeth Donegan

By now, you probably have forgotten all about the fact that we have our own in-house Blood Donor Center located at M 80, a floor below the gift shop. You may also have misplaced the number to call if you want to make an appointment to give blood: x66989. You may also have forgotten some of the reasons why you, as an employee, might want to donate blood at the Center. Here are six:

Maggie Bryan, Med Center Administration: "I look at it as doing our fair share. As we expand our surgery, oncology, transplant and other programs requiring large amounts of blood, instead of taking more and more blood from community supplies, it seems reasonable that we make an effort to do what we can to augment the supply from within."

Sharon Coleman, Bone Marrow Transplant coordinator: "The Adult Bone Marrow Transplant program will perform 50 transplants this year. The average patient will require more than 50 transfusions over the course of his or her treatment. Although many patients benefit from directed donations, the success of our program depends largely on volunteer donors."

Steve Cohen, director, Clinical Labs: "If we can develop a pool of donors with known blood types within the campus community, then, when there is a need for a certain type of blood, it certainly would be a convenience to be able to call upon this pool."

Carol Viele, oncology clinical nurse specialist: "For health care workers, I think it's good practice in being on the other side of the fence—to feel what a patient feels."

Marek Bozdech, director, Adult Bone Marrow Transplant Service: "Studies have shown that people who give blood regularly have a lower cholesterol level."

Elizabeth Donegan, director, Blood Bank: "Giving blood is not anyone's duty to UCSF. It's something you do for yourself, to know you've made a contribution toward helping someone, even saving someone's life."

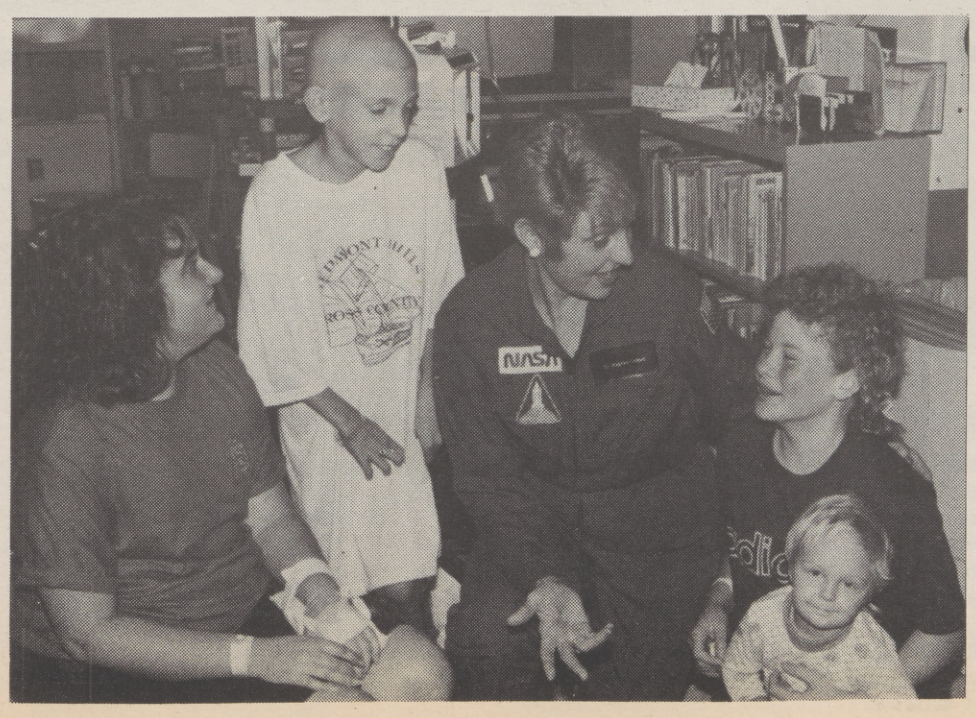

I Wanted to be an Astronaut Ever Since I Was a Kid

Last week the kids in the pediatric playroom got to meet a real astronaut, Millie Hughes-Fulford—who also happens to be a member of the UCSF faculty. Millie, who does research at the VA (when she's not at NASA headquarters training for her forthcoming shuttle flight), arrived in her flight suit, showed slides of what life is like on a shuttle, and answered questions.

"What made you decide to become an astronaut?" asked one young patient.

"It's something I wanted to do ever since I was a kid," she said. "I guess I saw astronauts on TV, and caught the bug." Millie's childhood fascination with outer space and astronauts led her to believe that children at the hospital might enjoy hearing about her experiences—and thus she has volunteered to make monthly visits to our Children's Medical Center.

Could be that adults as well might be very interested in her experiences. If this is the case, look in the December 17 issue of *Newsbreak/Medsounds*. You'll find a full-length feature story on our resident scientist/astronaut.

Will Your Child Follow in Your Footsteps?

If you think your high school-age child, relative or friend might be material for a health care career, you could gently suggest he or she attend the "Careers in Health" job fair at the Medical Center on Wednesday, November 16, from 4 to 7 p.m. in Cole Hall. You could take this a step further by calling Ellen Call at x61848 and making a reservation.

Lots of career ideas will be presented—in nursing, physical therapy, respiratory care, medical technology and several other areas.

This is not your average boring career fair. Students actually tour the areas, meet staff members and have the opportunity to ask questions. Plus, they can stuff themselves with pizza (this was last year's menu, anyway) and win prizes.

Submit Your Recipes

Remember the article in the last *Medsounds* about Nutrition & Dietetics' recipe search? They're looking for entree recipes to add to the cafeteria menu. The entry forms are now available in the Moffitt cafeteria. You'll notice there's a space for naming your recipe. Naturally, you can name it after yourself. Then, if they choose to add it to their menu, you'll be famous. Further, if you enter your recipe before November 30, you'll get a coupon for 15% off on your next Moffitt cafeteria purchase. Return the form to the box in the cafeteria, or send it to "Recipe Search," Nutrition & Dietetics, Box 0212.

Save Hundreds of $$$ on Dinner

Joyce from the Auxiliary office says, "Come buy your 'Entertainment '89' books right now." They're valid for a year beginning next Wednesday (November 2). For $35 you get dozens of two-for-one or 50% off deals at local restaurants, plus many discounts on all varieties of entertainment. You can look at a copy in the Auxiliary office at M 182. Call x64906 if you plan to stop by.

P.S. For every book bought, the Auxiliary gets $6.

United Way *(cont.)*

- Packed picnic basket from Patty Perry
- Personal computer lessons from Ron Schumacher
- Two tickets to Palo Alto Theater Works from Duffy Price
- Auntie Pasta gift certificate from Charles Taylor
- Crabtree & Evelyn gift basket from Wayne Taylor
- Four dozen chocolate chip cookies from Susan Semonoff
- Danish cookbook from Leona Hansen-Nealey
- Homemade cheesecake from Bob Rush
- Two bottles of Buena Vista cream sherry ("can't be purchased in stores") from Eric Saltmarsh
- Even Koret Family House—a case of "Family House" chardonnay

Earthquake *(cont.)*

Emergency. "But the purpose of these drills is to raise as much awareness as possible," says Kathy Lenihan, coordinator of the drill. "In other words, everyone needs to tune in.

"If this were really to happen, all areas of the campus would be called upon to help, to transport victims and so forth. In the nursing units, staff are required to study and review the disaster manual. But every department on campus has one, and now is the time to read it. Look at it this way: Think of your own personal safety. It's not like the possibility of an earthquake is that remote."

Flash! Directors Cup Champs!

After a near-win last year, Nutrition & Dietetics made it to the top in softball this year. They beat Med Center Administration 12-9. And Medical Records—last year's softball champs—got the Cup for volleyball this year! Read all about it in the next issue of *Medsounds*.

Win Part of John Waldman's Astounding Live Concert Tape Collection

One thing about these United Way raffles, we always learn interesting things about people, based on the prizes they donate.

Ob/Gyn's John Waldman, for instance, started collecting and trading live concert tapes about 10 years ago, and by now has an accumulation of almost 2,000. In the beginning he collected Grateful Dead tapes, but a few years into his hobby he started branching out. Now his library (housed mostly in kiwi crates) includes just about any contemporary musician or group you could possibly imagine, with performances dating from the early '60's to this year. The list fills four dozen pages!

John's donation to the Med Center raffle is that he will turn this list over to you and let you choose 10 tapes for your own collection. With very few exceptions, all are 90-minute unreleased live recordings, taken directly from the soundboard at concerts.

John Waldman: "Take your pick."

He even goes so far as to say that if your favorite artist or a specific concert is missing from this list, he'll see if he can get his hands on it through his trading network.

So that's one thing you can win if you make a donation during the United Way campaign, which begins Monday, October 31, and runs through Friday, November 11. Let's see what else, so far:

- Take-home fettucini dinner for two from Susan Janvrin, including homemade pasta & pesto, bread and chianti
- Night at the Benbow Inn in Garberville (near Eureka) from Sue Flanagan and the maternal/child health nursing division
- Handmade teddy bear from Rufus Battles
- Dinner for two at Nepenthe (famous restaurant outside Carmel—former home of Vincent Price) from Dan Shydler; or he will wash your dog. Or wash and wax your car or bike
- Ski weekend from Kathy O'Brien
- Guided tour of the Pacific Stock Exchange from Duane Brown
- Day of maid service from Karen Akerson
- Dinner anywhere you want in SF from Helen Ripple
- Two nights at Point Reyes Seashore Lodge from Bill Kerr
- Case of mixed vintage wine from Jackie Kuhn
- Two tickets to SF Opera from Richard Roginski
- $25 Emporium-Capwell gift certificate from Jesse Stephens
- Four tickets to the winter ice capades from Maggie Bryan
- Hour of horseback riding lessons from Marty Gustafson
- Ten passes to the movies from Kirby Maples

(continued on page 7)

This is What It's All About

In order to capture some first-hand essence of United Way's work, Med Center committee co-chairs Steve Downs and Maureen Ford visited the Parent-Infant Neighborhood Center, a United Way funded site. This busy center in the heart of SF takes in infants who are subject to or in danger of abuse or neglect and works with their parents, often teenagers who have not yet finished school, to get back on a better track.

This is the only program of its kind locally, and their service area covers the entire City. Their case load is always up to capacity, including several families on outreach. And they get more calls every day. "The need is tremendous," says program director Beverly Bounds. "But we reach as many people as possible. We've seen some real success stories."

Getting acquainted: Steve in the background and Maureen in the far right foreground. Behind Maureen, the Center's Beverly Bounds. To the left, Kathy Suzuki, a United Way executive "on loan" from IBM.

Watch Yourself Win, November 11

If you want to witness yourself winning one of the these prizes (still more to come); show up for the Med Center's wrap-up raffle party on November 11, the last day of the United Way campaign. The time is 2:30 to 4 p.m., and the place is the employee lounge on the plaza level of the ACC.

Here's the best part: For your entertainment, the committee has invited preschoolers from our Marilyn Reed Lucia Child Care Study Center to sing at the party. Since the theme for this year's Med Center campaign and party is "That's What Friends Are For," the committee decided they'd choose children as a sort of focal point for this theme. Thus, the singing children at the party. Thus, the balloons, kites, hot dogs and ice cream at the party, items enjoyed only by children, with the exception of adult Med Center employees. And thus, the site visit to a children's center funded by United Way. (See adjacent story.)

These Are the People Who Do the Work

Pictured are 15 United Way donor reps, representing more than 140 people serving as donor representatives for Medical Center departments. These are the people who distribute the envelopes, solicit donations, answer questions, collect the money, pass out raffle tickets and generally serve as your department's resources for United Way.

Pictured left to right are Else Innes from Quality Assurance, Bert Callen from the Clinical Labs, Carol Shockley from Medical Records, Karen Johnson from HISD (who came all the way from CED for this photo), Sybil Bourges from Nutrition and Dietetics, Carmelita Rigor from Admitting, Marie Campbell from 12 Moffitt, Teresa Daguio from Nutrition and Dietetics, Stephanie Jeppson from Nursing Administration, Rose David from Nutrition and Dietetics, Elba Estrada from Contract Administration, Dee Flanagan from the OR, Blanche White from 7 ICU and Phyllis Farrar from Radiology.

Captain America Says "Come to the Health Fair November 5"

You know it's got to be an important event if Captain America stepped right out of the comics and into the Medical Center to pose for this photo with Health Fair co-chairs Sylvie Khajenoori and Bob Saum.

This is the fourth annual Children and Family Health Fair, which happens to coincide this year with the 75th anniversary of the UCSF Department of Pediatrics.

It takes place Saturday, November 5, from 10 a.m. to 4 p.m. It's free (even parking in the MU garage). You, your family, friends, neighbors, cousins, aunts, uncles and grandparents are invited to come partake of the fun, fantastic exhibits, free T-shirts, fingerprinting and photo IDs, clowns, jugglers, marionettes, music and a total circus atmosphere under the big top. Where? The giant tent in Saunders Court. See you there.

Be Prepared for an Earthquake, Nov. 10

Our next disaster drill is scheduled for Thursday, November 10. Here's the scenario: An 8.6 earthquake occurs in San Francisco. All campus and Medical Center phones are out of order. Several buildings are cracked. There is structural damage everywhere. Gas (including oxygen and air) and water lines are broken. All power is out except for an emergency generator. There are numerous victims with a variety of injuries. The death toll is estimated to be high. The streets are impassable so the Medical Center is cut off from any outside help.

The departments directly involved in acting out the scenario will be 9 and 10 Long, Materiel Services, Medical Records and
